BIRD FOOD

WHERE LONA IS, THE BIRDS SING.

WHY WITH LONA

We are committed to environmental conservation and bird habitat protection, and we seek to collaborate with media outlets and non-profit organizations that share our mission. By working together, we can:

- **Raise Awareness**
Highlight the importance of supporting bird populations and sustainable wildlife practices. Any expertise in bird conservation and feeding practices would be invaluable in helping us improve our products.
- **Drive Engagement**
Inspire communities to embrace bird feeding as an enjoyable and impactful way to connect with nature.
- **Support Conservation**
Advocate for the protection of natural habitats and biodiversity through innovative solutions and educational initiatives.

FEEDER SILOS.

LONA-products are beautiful designs that excel in quality, ease of use, durability, have a unique hanging system and can be easily attached almost anywhere. Whether it's a rain pipe, tree trunk, fence, branch, wall or pergola, it's no problem. Often without screws with included fasteners. Removing and refilling with garden bird feeders is done with one simple movement.

It's that simple.

LONA

S1 FEEDER SILO

LONA S1 is a garden bird feeder with 1 feeding unit. This feeder is the smallest unit of the S-series. Easy to attach to a rain pipe, tree trunk, fence, branch, wall or pergola.
